RYDER CUP THRILL

DECIDED ON LAST GREEN

BRITAIN WINS BY A PUTT

London, June 27. A dramatic finish was provided in the Ryder Cup contest at Southport to-day. With one pair still to come in, Britain and America were all square.

The result depended entirely upon the Easterbrook-Shute match. At the end of the seventeenth hole | mountainment manuscrimment manuscriment manusc on the second round, these two players were all square.

The Ryder Cup contest was therefore decided on the very last hole played, when Easterbrook holed out in five against six, to give Britain victory by six and a half matches to five and a half. The results of the singles matches to-day follow:

Abe Mitchell (Britain) beat Dutra (America) by nine and eight.

Craig Wood (America) beat W. H. Davies (Britain by four and three.

Gene Sarazen (America) beat A. H. Padgham (Britain) by six and four.

Walter Hagen (America) beat A. J. Lacey (Britain) by two and one.

Arthur Havers' (Britain) beat four and three.

Runyan (America) by two and one.

(Britain) by two and one.

Easterbrook (Britain) beat Shute (America) by one

Britain and America, therefore, shared the singles matches four each, Britain having won the foursomes by two and a half to one and a half.

The Prince of Wales attended the contest this afternoon and watched all the matches in turn, afterwards presenting the cup to the British captain.

London, June 27. As President of the Monetary and Economic Conference, Mr. Ramsay MacDonald has convened a meeting of the Bureau of the Conference for to-morrow at which a report will be made of the developments to date and consideration will be given to coordinating and expediting the great mass of work in committee.

Much work was to-day done by the various committees, mostly in private.

The examination of questions relating to the circulation of monetary gold and the minimum legal cover for central banks was to-day completed by the appropriate sub-committee of the financial commission. This body has subtions:--

Real Kick in This Exercise

Kick the ball when thrown at your feet. By Jac Auer

To-day you learn the medicine ball kick. Lie on your back, with a small pillow bracing your shoulders. Put your hands, palms downward, under your hips. Now pull your knees up and bend your legs, getting in an

easy position to kick. Have someone toss the medicine ball lightly at your feet. Kick it hard as it comes to you. Each time it is thrown kick it with spirit. Try to aim so that your helper can catch it. But kicking is more important than your aim.

Take it easy. Kick the ball not more than 25 times the first day. There is no need for getting sore, using muscles that have gone lazy on you. However, each day add more kicks to the exercise until you can do 100 without tiring.

This is one of the best all-round exercise that you can possibly do. It calls for the co-ordination of muscles that you should have achieved by now. It calls to attention and works out all those back muscles, thigh, hips and abdominal muscles that other exercises have been working on. It is the summation of them all because it utilizes the new muscle strength that

should be yours by this, time. . Combine, this exercise with the arm throwing of the medicine ball and practise faithfully. Your pounds will melt away and your whole body will be toned up to perfection.

Each day you must go through this series of exercise. Morning is always the best time because you are fresher and your day will go more smoothly if you get all your muscles wakened and working. However, there is nothing like a little afternoon exercise when you come home tired. And for persistent reducing, you must exercise both morning and night.

One word more. Look to your diet. Remember just fruit juices and beverage for breakfast. And the lightest of lunches. When dinner comes, be moderate. The perfect figure indicates no gift of the gods-it means: There, by the grace of restraint, goes a divine form. Yours can approximate it, if you start a daily regime, and keep at it!

Two pictures from Wuhu which give a graphic idea of the damage wrought by the terrific cyclone which passed over the city on June 13, leaving behind it a trail of destruction. Picture at top shows about one-third of the roof of one of the foreign dwellings near the Wuhu Hospital carried away by the storm. At left is an uprooted tree that had weathered the storms and typhoons of decades.

NEW YORK STOCK EXCHANGE

According to Messrs. Swan, Culbertson and Fritz, the New York market was firm yesterday. Business done 5,640,000 shares. The Stocks elimbed to new highs since 1931 due to a sharp weakness in the U.S. dollar and continued advance of grains, cotton and commodities, and also sensational gains in alcohol issues owing to anticipated victory of the wets' in to-day's repeal elections in California and West Virginia. Chicago wheat crossed the dollar mark for the first time in many years with the quotation for December closing at 100% and May \$1.50. Wild trading in cotton caused prices to advance approximately \$1 a bale reaching the highest levels in two years. Profitaking, however, depressed cotton later. Cable received from Swan, Culbertson & Fritz, New York: Alcohol issues foatured the market which responded to renewed public buying. A technical setback, lowever, is anticipated by traders but higher prices are expected later with rolls most likely to be brought forhigher prices are expected later with rails most likely to be brought for-ward. Wheat: The public took the market away from professionals. Some good rains reported but too late to be of much help to the crops. Cotton: Washington reports state that the advance in prices is com-

First impressions of the industrial control measure passed by Congress at the behest of President Roosevelt are confirmed by the detailed information now available. Its main weakness would appear to be failure to take full cognisance of the wide gap between productive capacity and purchasing power, to recognise the breakdown, from the viewpoint of the community interest, of the money system. It is doubtful whether any scheme, however well-considered and forcefully pursued, can succeed in redressing the anomalies of the distribution of wealth without drastically amending the existing money system. At present, the industrial control measure appears to be economic planning of industry with the maintenance of the hard-dying policy of laissez-faire as far as the consumer is concerned. Nevertheless, that President Roosevelt has gone as far as he has is a great deal and it is impossible to estimate whether or not he has the further processes necessar to the creation of the new world awaiting the proper moment for weak in 1833. BEAT THIS ONE."

Our bright modern feminists elately put manicured and carmine-tinted fingers to their noses at the Life Force. They have deftly ouchred Nature herself. The one outstanding and conspicuous exception to the rule of the superior adornment of the male is Man. That inherently majestic animal has been robbed of his patrimony by a feminine sartorial conspiracy. It began in the Garden of Eden, and will not end with the Rue de la Paix. Remorselessly but steadily Woman has reduced Man, the erstwhile Lord of Creation, to a dingy thing in utilitarian overalls. Adam wears dungarces. Eve adorns herself with spoils of the universe.

Therein reposes the true secret of the feminists bonst of their sex superiority. They have usurped the crown of sartorial glory. But they are not talking about it. That may be either because they fear to betray their great secret to dull-witted Adam, or because they recognise that Adam, in his workeday overalls, if he realised the trick played on him, might make even more fuss about footing the bills. For that is the real triumph of feminism. The ladies have stolen our clothes and continue to make us pay for the expensive renewal!

Sunshine is life to the watermen, and for years, they say, rain has drowned them out: 1930 was bad, 1931 was worse, and 1932 deepened the loss.

WHAT IS UNDER THE HOOD OF THE 1933 CHEVROLET?

Canadian Built.

CHEVROLET'S SIX-CYLINDER VALVE-IN-HEAD ENGINE

Chevrolet pioneered the 6 cylinder engine in the low-price field. Four years ago Chevrolet changed from a 4 to a 6 cylinder car. This move was made because Chevrolet engineers new that the only way to climinate the destructive vibration which is inherent in 4 cylinder design was to use the naturally smooth 6.

So in 1929, after three years of research and designing, Chevrolet introduced a six and for four years since its introduction has been steadily perfecting that design and adding important improvements and refinements until to-day the Chevrolet 6 cylinder engine is beyond question the finest power plant available in a low-priced car.

This new engine develops 65 horsepower at low engine speed. It offers a maximum speed of 70 miles an hour and you can drive this car from 40 to 45 miles an hour in second with ease. It gives the driver of the new Chevrolet control of every traffic situation.

WIN BACK RYDER CUP

FIRST DAY'S FOURSOMES DECIDES THE ISSUE: PLAYERS FINISH ALL SQUARE ON SINGLES

Although Great Britain had established a two-and-a-half to one-and-a-half-lead-in the foursomes of the Ryder Cup match with America's golf professionals, the United States team made a valiant fight to retrieve the vanishing hope of victory in the second day's play. But when the last pair came in from the Southport course, Britain had won six and a half matches and America five and a half.

At the end of the morning round, however, there was little advantage to be seen either way. Anything might have happened. Sarazen was two up over Padgham; but Mitchell was five up, paired with Dutra. Lacey, the Britisher, was one up on Hagen and Alliss led Runyan by the same score. Davies and

Wood, Havers and Diegel were level at the end of the round. Shute, on the other hand, was one up over Easterbrook, and Horton Smith added to America's position a five hole lead over It was by the advantage they gained in foursome play that Whitcombe.

COURT REJECTS CLAIM FOR \$20,000

The case of a-"mystery" whose identity and death drama and a claim under a life in- | die in this manner. surance policy for \$20,000 Straits Chief Justice, Mr. J. R. Wood, at the Supreme Court yesterday.

A motion by the widow of Yap added Mr. Potter. Chee-meow late of 21, Shanghai Street, Yaumati, to presume his death by drowning in the Pearl River on September 6 last year was refused. A similar application before Sir Joseph Kemp November, 1932, had also been unauccessful.

Interveners were the China Underwriters, Ltd., who did ask his Lordship to make any

order for costs. The hearing opened on Monday, when the bulk of the evidence was

Applicant was represented by Mr. Leo D'Almada, inr., instructed by Messrs. Lo and Lo, and Mr. Eldon Potter, K.C., instructed by Messrs. Deacons, appeared for the interveners.

Identity Unproved.

Addressing the Judge, Mr.
Potter said he had opened the case very fully but wished to emphasise that in a case of this kind where life or death had to be proved, the onus of such proof was on the affirmant. Assuming that petitioner had satisfied the court that Yap existed, she had now to show that he was dead.

court that his mother had affirmed the receipt of amounts ranging from \$300 to \$1,000 two or three times a year.

Yap and his wife probably lived a retired life in Kuaia Lumpur, and the fact that the Company's investigations had failed to disclose any confirmation of their presence in Singapore was corroboration of the widow's inability to state exactly where they lived or for whom that he was dead. . .

Chan On would not or could not, tell them of one place where deceased had worked, and though the inter-

veners had tapped every source of information available they were in that position of ignorance still.

His Lorship remarked that the Insurance Company medically examined somebody when they granted the policy in Singapore, and that a doctor of the Company again examined him in Hongkong. Was attached that the there any question but that the subject of examination in these st clean cool; conditioned air places was one and the same man?

Mr. Potter said there was no doubt that the man was the same, but the Company's difficulty was that they were not satisfied that the alleged dead man and Yap were one and the same.

His Lorship said the fact that the policy was taken out in favour of the applicant pointed to it's bona fides, unless a campaign of dishonesty had been running on since it was taken out in Decem-

"That will be our submission, my Lord," replied Mr. Potter.

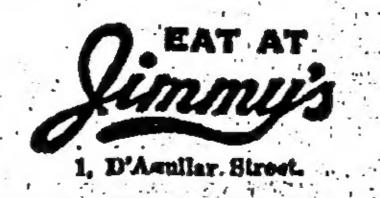

Continuing, he said that there were no data on which they could trace events from December. 1930, but his submission was that Yap intended eventually to swindle the

Company. It was significant that though Yap was 15 years in Kuala Lumpur, not a single witness could, or would, put the Company in touch with anybody who had known him

Part of the whole arrangement was the fact that Yap wrote to the Singapore office asking for a letter of introduction to the Hongkong office, instead of personally applying for the letter.

"A Man of Straw."

Mr. Potter said he did not wish to attack the honesty of the widow, but the "crass ignorance" that had been imputed to her would not serve as an excuse for other witnesses. He suggested that Chan Shook-khow, who said he saw the man fall into the river but could not remember the number of his own house, actually lived with his brother-in-law Yip Peng-yee. The latter and Cheng King-hoo, the introducers of Yap to the Company, had not given any information about him since his alleged death. The first had pleaded ignorance,

His Lordship: Are you suggest ing that nobody fell overboard? Mr. Potter: I don't know. I may be that he fell overboard but it was at a place only 12 miles from where his introducer lived.

There were four possibilities, he continued. Yap may have fallen overboard and died, he may have got ashore, somebody else may have been the victim, or nobody fell over at all.

Mr. D'Almada Address. Mr. D'Almada, rising to address the Judge, said he hoped that his actions would never be interpreted by Mr. Potter, for however innocent they might be, they could hardly fail to assume a shady or dishonest aspect through him.

Although the means of deceased were not strictly relevant to the present issue, he would remind the court that his mother had affirmed

It was common ground that there was no other property belonging to the applicant, so that the issue was time.

PENINSULA HOTEL An innovation that last year at-

tracted hundreds of people to the spacious and comfortable lounge of the Peninsula Hotel and which afforded congenial entertainment The Bank of England & Midland Bank, Ltd. on Sunday evenings is to be reintroduced next Sunday, July 2, with an opening symphony concert.

The programme for the occasion, Bangkok Bombay to be announced later, comprising Calcutta an interesting selection of instru- Colombo mental music by popular composers, Delbi will be rendered by the massed Hongkong bands of the Hongkong and Shanghal Hotels, Ltd. under the conductorship of Mr. A. Gellman, the accomplished band leader.

There will be no fee for admission,-but a minimum charge of \$1 will be made for refreshments.

The concert is to commence at 8.45 p.m. prompt, and early attendance is suggested for preferential seating accommodation.

SOONG TO SAIL

BEFORE END OF CONFERENCE

London, June 27. It was learned to-day that Mr. T. V. Soong, China's Finance Ministor, would sail shortly for home. The date of his departure, however, has not yet been fixed. He will probably visit Berlin, Geneva and Rome before he sails from

Venice. This plan does not imply a change of procedure on his purt. Mr. Soong did not intend to remain in London for the duration of the Economic Conference, and actually idid not expect to stay as long as he has done already.

In the course of his visit to the Continent, he will doubtless take the opportunity of visiting various statesmen, including Premier Mus-solini, in Rome, just as he made contacts with French statesmen in Paris .- Reuter Special.

WON CHAMPIONSHIP MALAYAN

British Record Broken

with the help of PHOSFERINE

OOI LEONG TEIK writes:-CET is with the greatest pleasure that I write to testify to the benefits I have received by taking Phosferine dur-

ing my training for the 1981 Malayan Weight-Lifting Championships. As I had to reduce some seven or eight pounds off my normal bodyweight in order to enable me to compete in the 9-stone class, I had to go into very strenuous training, and with the help of Phosferine, I not only won the championship of that class, but also the Individual Championship, and, in addition

I broke a British Record. I therefore have no hesitation in recommending Phosferine to any physical culturist or athlete, whether he be in ordinary training or preparing for a

competition, as it CIVES ENERGY and ENDURANCE and RENEWS BROKEN-DOWN TISSUE!

NOTES SUPPLIED BY THE THEATRES

The place left vacant on the acrees by the untimely death of Lon Chaney could very logically and admirably be filled by Conrad Voidt, the International star, who is playing at the King's Theatro in "Rome Expresa". If Veldt were the type of man who graved exploitation, he might easily have encouraged the appellation "The New Lon Chancy" or some similar phrase. But he is modest and retiring to a degree seldom observed in theatrical folk, who, by the very nature of their profession, have very

But his achievements, and the high quality of his acting as well as his remarkable ability to achieve weird, grotesque effects of characterization by make-up, inevitably call for comparison with Chancy, who because of these very qualifications, ruse heights of popularity never before prefer to open the hand with a bld equalled in films! No more skill in of one no trump. Remember that the art of make-up, no facility with n the constructive one over one moulding clay or wigs or cosmetics system of bidding an original bid could possibly explain the greatness original one bid that can be made. transcending this peculiar adaptibility It is doubtful if West would to transform the body into a foreign, weird creation, is the innate ability North, with his ace and queen, will to act, to live the part portrayed. polished, cruel, cunning criminal which he plays in "Rome Express" where there is no strange make-up other than the continual sardonic smile which you feel sure masks devilishly contriving mind, Veldt's histrionic talent is superb, and makes his role, easily outstanding even in a picture whose plot is concerned with many colourful, almost equally interesting characters.

Conrad Veidt, after long years of preparation for the stage under the tutelage of Max Rheinhardt, gave dramatic recitals in Budapest and other Continental cities. His stage appearances were made with Emil Jannings, with whom he subsquently appeared in pictures, Werner Krauss and Paul Weigel. Veidt's first motion picture work was in "The Riddle of Benjalore", directed by the late Paul Leni, and his first part was a churneter part. This was followed by his memorable role of the sleepwalker in that eccentric, astounding film, "The Cabinet of Dr. Caligari", and in "Three Wax Works". Both of these pictures, although made abroad, were popular in America, and Veidt's work Borgia", "The Brothers Schellenberg", But If this is done, East will win It was then that Carl Lacumde signwith the king and return a heart. ed him to a long-term contract to apheir, stolen in childhood and dis-The careful declarer, after win- figured by having a hideous leer carmust hold up one round, winning it was said that Lon Chaney was the only other living actor who could have only other living actor who could have done this, and Chaney was not young and even though it loses to West's enough to fit in with the requirements

A Lady's Profession.

"A Lady's Profession," a comedy featuring Alison Skipworth, Roland Young and Sari Maritza, opens today at the Queen's Theatre.

The picture centres around a couple of penniless Britons, who possess more ancestors than money, and resolve to balance matters by going to America, where, so they understand, there's more money than ancestors. Miss Skipworth is one of the pair;

THROUGH THE NEWSPAPER.

If newspapers suddenly ceased publication, would you miss them?

If hoardings, pamphlets, signs, posters, etc. disappeared-would you feel the loss?

Of course you would miss your morning and afternoon paper!

It keeps you fully posted with the happenings throughout the world. It records local events. It is both educative, informative and entertaining.

It guides you in your individual needs through its advertising columns.

IT IS INDISPENSABLE

Its measure of influence is regulated by circulation, and that is why throughout the world to-day. the leading newspapers supply authenticated particulars of Paid Sales.

The "Post" and "Telegraph" circulations are regularly cartified by Chartered Accountants, Messrs. Lowe, Bingham & Matthews.

Young, coat as her brother, the other. Miss Maritza is the latter's daughter.

Young goes across the ocean first and when Miss Skipworth and Miss Maritza finally reach Now York, it is to find him engaged in the operation of a speakeasy. It's not a prefitable venture, however, he explains. The bootleggers who supply him with his stock are terrified at the thought of what will happen to them when prohibition is repealed, and are attempting to force him to take a heavy quota of liquor, which he can't possibly sell.

Miss Skipworth, shocked at the whole idea at first, nevertheless takes a hand in matters. She'll have not-hing to do with the bootleggers, she says, and she proceeds, with English stubbornness and English thorough- M ness, to convince the bootleggers of R that fact. She succeeds, and the beaten racketeers are left holding the proverbial bag.

A romance between Miss Maritza R and Kent Taylor runs through the

"The Squeaker"

The next event at the King's will p be the showing of "The Squeaker", an adaptation of the famous stage success by Edgar Wallace, written and produced by the author. This fine British talkie, with .. Percy Marmont at the head of an excellent cast, is one of the most dramatic and thrilling detective stories ever screened.

Britain's most popular author contributes the piece de resistance of "The Squeaker", an excellent all-British talking picture. Edgar Walls ace adapted it from his notable stage success, and produced it at the British Lion Studios at Beaconsfield. It was his first attempt at talkie production and the first product of the British Lion Studio—an outstanding entertainment from whatever angle it is considered.

These are many excellent points about the play-thrills, drama, excellent reproduction of pure English, and clever dialogue-but none more remarkable than the superb acting of the fine cast. Percy Marmont, Gardon Harker, Trilby Clark, Anne Grey, Alfred Drayton, Eric Maturin and Nigel Bruce, all give of their best and make it a most entertaining picture. It is coming on Thursday to the King's Theatre.

NUNOI'S CLASSIC STRUGGLE

(Special to "Telegraph")

(By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894. Received June 11. 11 a.m.)

London, June 28.

One of the most exciting matches at Wimbledon yesterday was that in which L. J. Stoeffen, the tallest player in the tournament, defeated ·Nunoi, the Japanese hope, after a terrific five-sets battle.

Stoeffen is 6 feet, 7 inches in height and he is also described as the most handsome of the men competitors. Nunoi was expected to play the role of giant-killer, but he could not cope with the young American, who gave a brilliant all-round display.

Stocffen produced a terrific service and scored several aces, although Nunoi countered by bringing off some brilliant winners in volleying duels and producing delightful backhand drives. Stoeffen won the first set at 9-7, but Nunci exceptional mobility gave him the second at 6-2.

RYDER CUP THRILL

GREEN

BRITAIN WINS BY A PUTT

London, June 27.

A dramatic finish was provided in the Ryder Cup contest at Southport to-day. With one pair still to come in, Britain and America were all square.

The result depended entirely upon the Ensterbrook-Shute match. At the end of the seventeenth hole on the second round, these two players were all square.

The Ryder Cup contest was therefore decided on the very last hole played, when Easterbrook holed out in five against six, to give Britain victory by six and a half matches to five and a half.

The results of the singles matches to-day follow: Abe Mitchell (Britain) beat Dutra (America) by nine

OTTO KAHN GIVES EVIDENCE

NORMAN DAVIS **AGAIN**

(Special to "Telegraph").

(By Telegraph, Copyright: Telegraphic Messages Ordinance, 1884, Received June 28, 0,04 a.m.)

Washington, June 27. The operations of the famous private financial house, Kuhn, Loeb and Company, are now the

The inquiry into the affairs, of J. P. Morgan and Company has been completed after sensational revelations, chiefly concerning special facilities to leading figures in American life for purchasing shares at prices below the market

It is the purpose of the Senate Committee to investigate the affairs of all the great financial' houses in turn. It is now the turn of Kuhn, Loeb and Company.

MR. OTTO KAHN.

Mr. Otto Kahn, the well-known international banker, who is the head of the firm, was the first to be called upon to give evidence.

He testified that the assets of Kuhn, Loeb and Company at the end of 1981 totalled G\$66,974,000. The firm's chief business, he said, was with large corporations in need of financial assistance.

Mr. Clarence Pecora, the counsel conducting the examination, produced a list of thirty-seven corporations, fifteen of which had deposits with Kuhn Loeb, totalling nearly thirteen million, dollars at the end of 1931.

PAYMENT TO MR. DAVIS

In course of further questioning, Mr. Otto Kahn stated that Mr. Norman Davis received a sum of \$35,000 from the firm in 1925 for his services in connexion with a twenty million dollar loan to the Mortgage Bank of Chile floated by Kuhn Loeb and Company and the Guaranty Bank of New York. There's a Real Kick in This Exercise

-Rick the ball when thrown at your feet. By Jnc. Auer

To-day you learn the medicine ball kick. Lie on your back, with a small pillow bracing your shoulders. Put your hands, palms downward, under your hips. Now pull your knees up and bend your legs, getting in an easy position to kick.

Have someone toss the medicine ball lightly at your feet. Kick it hard as it comes to you. Each time it is thrown kick it with spirit. Try to aim so that your helper can catch it. But kicking is more important than your aim.

Take it easy. Kick the ball not more than 25 times the first day. There is no need for getting sore, using muscles. that have gone lazy on you. However, each day add more kicks to the exercise until you can do 100 without tiring.

This is one of the best all-round exercise that you can possibly do. It calls for the co-ordination of muscles that you should have achieved by now. It calls to attention and works out all those back muscles, thigh, hips and abdominal muscles that other exercises have been working on. Itsighthe summation of them all because it utilizes the new music strength that should be yours by this time.

Combine this exercise with the arm throwing of the medicine ball and practise fait'hfully. Your pounds will melt away and your whole body, will be toned up to perfection.

Each day you must go through this series of exercise. Morning is always the best time because you are fresher and your day will go more smoothly if you get all your muscles wakened and working. However, there is nothing like a little afternoon exercise when you come home tired. And for persistent reducing, you must exercise both morning and night.

One word more. Look to your diet. Remember just fruit juices and beverage for breakfast. And the lightest of lunches. When dinner comes, be moderate. The perfect figure indicates no gift of the gods-it means: There, by the grace of restraint, goes a divine form. Yours can approximate it, if you start a daily regime, and keep-at-it!

YOUR CHILDREN

By Olive Roberts Barton

When the "liberty" movement arst started in honour of our children some years ago, many of us sat back and said, "We shall reserve our decision until this batch of babies grows up. Like war and scarlet fever the real results cannot be computed for some fifteen years or so to come.".

And now we are getting results. mean real results. The antics of the well-known generation, postwar, the silly flapper and the devilish young man, was something dif-ferent. True, it was a "liberty" movement too but one of their own. It was a deliberate and direct revolt against the narrow and grim Victorian authority for which few people could blame them.

.The matter I refer to here is 11 Transformations were a specialidifferent, I am speaking of the cult that started with Freud, that canonized personal freedom and put a curse on authority. preached to parents the creed that babies in the cradle should then and thereafter be allowed to do as they please in order to prevent inhibitions and inferiority.

Extremes Are Dangerous Now, those writers like myself who saw the dangers of the two 24 Goddess of the bow. extremes, over-nagging and too much strictness against its opposite, liberty that was license, have been in a difficult position. For parents are too likely to use either one method or the other, and we had to stand between.

Several times I have used the simile of the circle. The child should be allowed to develop and helped to develop along his own lines, but inside a circle over which he must not dare to step. The circle must be big enough so that he won't feel like a calf tied to a tree, but that circle MUST BE THERE

Now to-day I not only wish to emphasize that circle again but Iam going to print some big words around it. "The Fear of God, the Law, and the Prophets."

Results Apparent Now The parent may interpret that as he likes. He may leave out part or all of it and just put in the words "Healthy Fear" or the words "Respect for Authority," or "Take Heed of Other People's

Rights, Life and Property." You see the results of too much liberty are here and we can now speak. Such parents who chose the "License Method" are in so many cases Ilving to regret it. wild boar hunting. NEW YORK STOCK EXCHANGE YESTERDAY'S MARKET MARKET GENERALLY

IMPROVED FIRM

According to Messrs. Swan, Culbertson and Fritz, the New York market was firm yesterday. Business done 5,640,000 shares. The livall Street Journal reports:—Stocks climbed to new highs since 1931 due to a sharp weakness in the U.S. dollar and continued advance of grains, cotton and commodities, and also sensational gains in alcohol issues owing to anticipated victory of the wets' in to-day's repeal elections in California and West Virginia. Chicago wheat crossed the dollar mark for the first time in many years with the quotation for December closing at 100% and May \$1.50. Wild trading in cotton caused prices to advance approximately \$1 a bale reaching the highest levels in two years. Profithighest levels in two years. Profittaking, however, depressed cotton later. Cable received from Swan, Culbertson & Fritz, New York: Alcohol issues featured the market which responded to renewed public buying. A technical setback, l/w-ever, is anticipated by traders but higher prices are expected later with rails most likely to be brought forward. Wheat: The public took the market away from professionals, Some good rains reported but too late to be of much help to the crops. Cotton: Washington reports state that the advance in prices is complicating the processing tax problem which with the possibility of extension of rains into the drought belt caused some selling but there is no

EMINENT BRITISH ANALYST'S REPORT ON 'ASPRO'

London, S.E.1

Dear Sirs, For some time past I have examined every consignment of

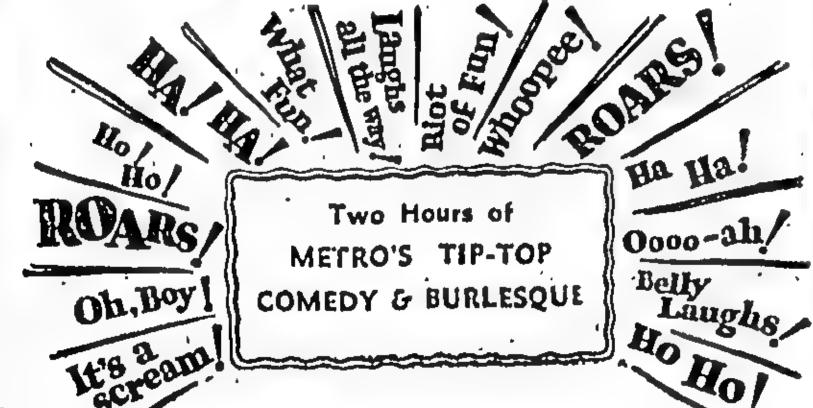

the raw material used for the manufacture of your 'ASPRO' Tablets. I have also arranged for this to be the invariable practice in the future. I have in every case found it to be of the highest possible

standard of purity-containing no traces of any impurities whatsoever. I have not, on any single occasion, found the minutest trace of free Salicylic Acid, which is, as you know, the particular impurity objected to in inferior brands of this important substance.

Yours faithfully, (Signed) B.Sc.F.I.C., F.C.S. (For reasons of professional etiquette we are unable to publish the name, but

for those interested, it may be obtained on application to Nicholas Pty. Ltd., 10 City Road, South Melbourne, S.C.4.)

Its main weakness would appear to be failure to take full cognisance of the wide gap between productive capacity and purchasing power, to recognise the breakdown, from the viewpoint of the community interest, of the money system. It is doubtful whether any scheme, however well-considered and forcefully pursued, can succeed in redressing the anomalies of the distribution of wealth without drastically amending the existing money system. At present, the industrial control measure appears to be economic planning of industry with the maintenance of the hard-dying policy of laissez-faire as far as the consumer is concerned. Nevertheless, that President Roosevelt has gone as far as he has is a great deal and it is impossible to estimaté whether or not he has the further processes necessary to the creation of the new world present-day ideas of the relations between different sections of the community. Perhaps one step at a time is as much as can be expected.

BEAT THIS ONE.

Our bright modern feminists elately put manicured and carmine-tinted fingers to their noses at the Life Force. They have deftly euchred Nature herself. The one outstanding and conspicuous exception to the rule of the superior adornment of the male is . Man. That inherently majestic animal has been robbed of his patrimony by a feminine sartorial conspiracy. It began in the Garden of Eden, and will not end with the Ruo de la Paix. Remorselessly but stendily Woman has reduced Man, the erstwhile. Lord of Creation, to a dingy thing in utilitarian overalls. Adam wenrs dungarees. Eve adorns herself with spoils of the universe.

Therein reposes the true secret of the feminists heast of their sex superiority. They have usurped the crown of sarterial glory. But they are not talking about it. That may be either because they fear to betray their great secret to duli-witted Adam, or because they recognise that Adam, in his workedny overalls, if he realised the trick played on him, might make even more fuss about footing the bills. For that is the real trlumph of feminism. The ladies have, stolen our clothes and continue to make us pay for the expensive renewal!

HOW PERRY LOST

THRILLING MATCH DESCRIBED

FARQUHARSON BRILLIANT

London, June 27. DRED Perry, England's No. 2 player, and "seeded" contestant, was today defeated in the second round of the men's singles championship, providing the first sensation of the 1933 Wimbledon Tournament.

He fell to N. V. Farquharson, the South African Davis Cup player by the scores of 7-5, 6-1, but Sutter, who, the day before, 8-6. 4-6, 6-4, in the course of had had some anxious moments which Farquharson gave the with Ito, maintained his steadiness most amazing display of tennis and eventually wore down the in his whole career.

Serving with great power, the South African drove on both forehand and backhand with tremendous punch.

He continually pressed to the net in the first two sets, and from there volleyed magnificently, making Perry look a second class player.

PERRY OUTCLASSED. Perry was quite incapable of arrears until the fourth and final

THRILLING FINAL SET. But Farquharson returned to the picture with renewed vigour in the final set, going up on almost everything and from the net intercepting Perry's fastest returns. . . Farguharson went to a threelove lead, but Perry, by supreme

play, levelled at three-all. Then, in a thrilling burst of overhead kills, the South African went to 5-3. He missed two match points and Perry broke through

to 5-4. It looked as though the English' "star" would be able to make a last minute recovery, but Farquharson actually went to 40-love on Perry's service. He played three more match points, the first of which Perry saved, and then Farquharson hit a mighty forehand drive which he followed up to the net.

GRAND MATCH POINT. Perry in a desperate effort to save the point lobbed, but his opponent finished off the match with a grand overhead kill which left Perry sprawling on the court.

C. R. D. Tuckey, the Varsity Blue and Army champion, won the first set from Henri Cochet in a second round match, but the Frenchman, playing his usuak dour-game, carried off the next three sets.

Dr. J. C. Gregory, former English Davis Cup player, strove hard against R. Menzel, the Czecho-Slovakian champion.

He took the first set to sixteen games, losing 9-7, and conceded the next two after capturing seven games.

NUNOI ELIMINATED.

The second big surprise of the day was the elimination of Nunoi, the young Japanese hope by Stoeffen who last week won through to the finals of the London Championship, beating Clifford Sutter after a toss of the coin.

Nunoi took the match to five sets, but was always in arrears. labour was imposed by Mr. Schofield, Terrific struggles took place in at the Central Magistracy this mornthe first and third sets which ing, on Chan Fuk for the unlawful Stoeffen each won at 9-7, but possession of three sheets of zinc. CHEVROLET'S SIX-CYLINDER VALVE-IN-HEAD ENGINE

Chevrolet pioneered the 6 cylinder engine in the low-price field. Four years ago Chevrolet changed from a 4 to a 6 cylinder car. This move was made because Chevrolet engineers knew that the only way to eliminate the destructive vibration which is inherent in 4 cylinder design was to use the naturally smooth 6.

So in 1929, after three years of research and designing, . Chévrolet introduced a six and for four years since its introduction has been steadily perfecting that design and adding important improvements and refinements until to-day the Chevrolet 6 cylinder engine is beyond question the finest power plant available in a low-priced car.

This new engine develops 65 horsepower at low engine speed. It offers a maximum speed of 70 miles an hour and you can drive this car from 40 to 45 miles an hour in second with ease. It gives the driver of the fiew. Chevrolet control of every traffic situation.

WIN BACK RYDER CUP

FIRST DAY'S FOURSOMES DECIDES THE ISSUE: PLAYERS FINISH ALL SQUARE ON SINGLES

Although Great Britain-had-established a two-and-n-half to one-and-a-half lead in the foursomes of the Ryder Cup matchwith America's golf professionals, the United States team made a valiant fight to retrieve the vanishing hope of victory in the second day's play. But when the last pair came in from the Southport course, Britain had won six and a half matches and America five and a half.

At the end of the morning round, however, there was little advantage to be seen either way. Anything might have happened. Sarazen was two up over Padgham; but Mitchell was five up, paired with Dutra. Lacey, the Britisher, was one up on Hagen and Alliss led Runyan by the same score. Davics and Wood, Havers and Diegel were level at the end of the round. Shute, on the other hand, was one up over Easterbrook, and Horton Smith added to America's position a five hole lead over

THIRTEEN HOURS SPEECH

ADDRESSES LORDS

GENTLE REBUKE

A speech by a woman is a rare occurrence in the House of Lords,
but it happened recently.

Wearing a long black gown, a
white soft collar and tie, and gold
rimmed spectacles, a Glasgow school
teacher addressed the Law Lords
for more than thirteen hours.

She was appealing against the
decision of a Scottish Court in an
action which it appeared, she had action which, it appeared, she had

started with the object of securing public retraction of alleged slander, and special damages.
At first she seemed a little nervous and plunged into the middle of things—a course which, as Lord
Atkin gently pointed out to her,
was not always advisable in a Court
which presumably knew nothing

Once at least her thirteen hours' speech was interrupted by an amusing dialogue with Lord Atkin. She wished to quote a passage from a judgment, when his Lord-

ship intervened. "Do not read that again," he said, "you have read it twice. We are quite capable of appreciating it if it is read once."

"I did not read the bit I want to

read now."

"Not only did you read it before, but I read it out to you myself, pointing out that it was the para-

graph most in your favour."

But she was not to be outdone:

"Well, I call special attention to these paragraphs," came the reply. -Reuter.

HE PAID PYORRHEA'S PRICE NEEDLESSLY

ARELESS, thoughtless neglect! That is to blame. Once he was healthy, energetic and ambitious. He had many friends who admired him, particularly his pleasant, ready smile.

Now he is ashamed to smile, but even that hardly matters, for he sits at home mlone, broken down, sick and forlorn. He saw the danger signals years ago. But did nothing! At first his gums bled when he brushed his teeth. Finally, one by one his teeth dropped out or had to be pulled out.

You may have pyorrhea now. Protect yourself from its dread effects. Every morning and evening use Forhan's forthe Gums. Brush your teeth with this scientific dentifrice. It not only cleans and whitens your teeth, but, most important of all,-it prevents pyorches. Forhan's for the Gums is the formula of R. J. Forhan, D.D.S., specialist in mouth diseases. It contains Forhan's Pyorrhea Astringent developed by Dr. Forhan and used by dentistrathroughout the world in the treatment of pyorrhea.

SUNDAY CONCERTS.

TO COMMENCE SHORTLY AT PENINSULA HOTEL

An innovation that last year attracted hundreds of people to the spacious and comfortable lounge of the Peninsula Hotel and which afforded congenial entertainment The Bank of England & Midland Bank, Ltd. on Sunday evenings is to be reintroduced next Sunday, July 2, with an opening symphony concert.

The programme for the occasion, to be announced later, comprising an interesting selection of instrumental music by popular composers, will be rendered by the massed | Hongkong bands of the Hongkong and Shanghai Hotels, Ltd. under the conductorship of Mr. A. Gellman, the accomplished band leader.

There will be no fee for admission, but a minimum charge of \$1 will be made for refreshments.

The concert is to commence a 8.45 p.m. prompt, and early attendance is suggested for preferential seating accommodation.

SOONG TO SAIL

BEFORE END OF CONFERENCE

London, June 27. It was learned to-day that Mr. T. V. Soong, China's Finance Minister, would sail shortly for home. The date of his departure, however, has not yet been fixed. He will probably visit Berlin, Geneva and Rome before he sails from

Venice. This plan does not imply a change of procedure on his part. Mr. Soong did not intend to remain in London for the duration of the Economic Conference, and actually did not expect to stay as long as

he has done already. In the course of his visit to the Continent, he will doubtless take the opportunity of visiting various statesmen, including Premier Mussolini, in Rome, just as he made contacts with French statesmen in Paris .- Reuter Special.

British Record Broken with the help of

PHOSFERINE CHAMPION OOI LEONG TEIK writes!-66 BT is with the greatest pleasure that I write to testify to the benefits I have received by taking Phosferine dur-

ing my training for the 1981 Malayan Weight-Lifting Championships. As I had to reduce some seven or eight pounds off my normal bodyweight in order to enable me to compete in the 9-stone class, I had to go into very stronuous training, and with the help of Phosferine, I not only won the championship of that class, but also the In-

dividual Championship, and, in addition I broke a British Record. I therefore have no hesitation in recommending Phosferine to any physical culturist or athlete, whether he be in ordinary training or preparing for competition, as it .

GUNMEN DIVIDE SOFIA

TOWN PARTITIONED FOR SAFETY

Gunmen of the two opposing groups of Macedonian revolutionaries, between whom there has long a political vendotta, have agreed to divide Sofia between them.

These opposing groups are com-posed of the followers of Ivan Mihaloff, often called the "Uncrowned King of Macedonia," and the followers of M. Protogueroff.
